

DB Primary Parent Workshop

Each Working For All

Please look at this in conjunction with the letter

What is DB Primary?

DB Primary is a safe, online learning platform through which children can explore a range of learning resources and share information.

It is an area for school pupils to **Collaborate, communicate and engage in learning.**

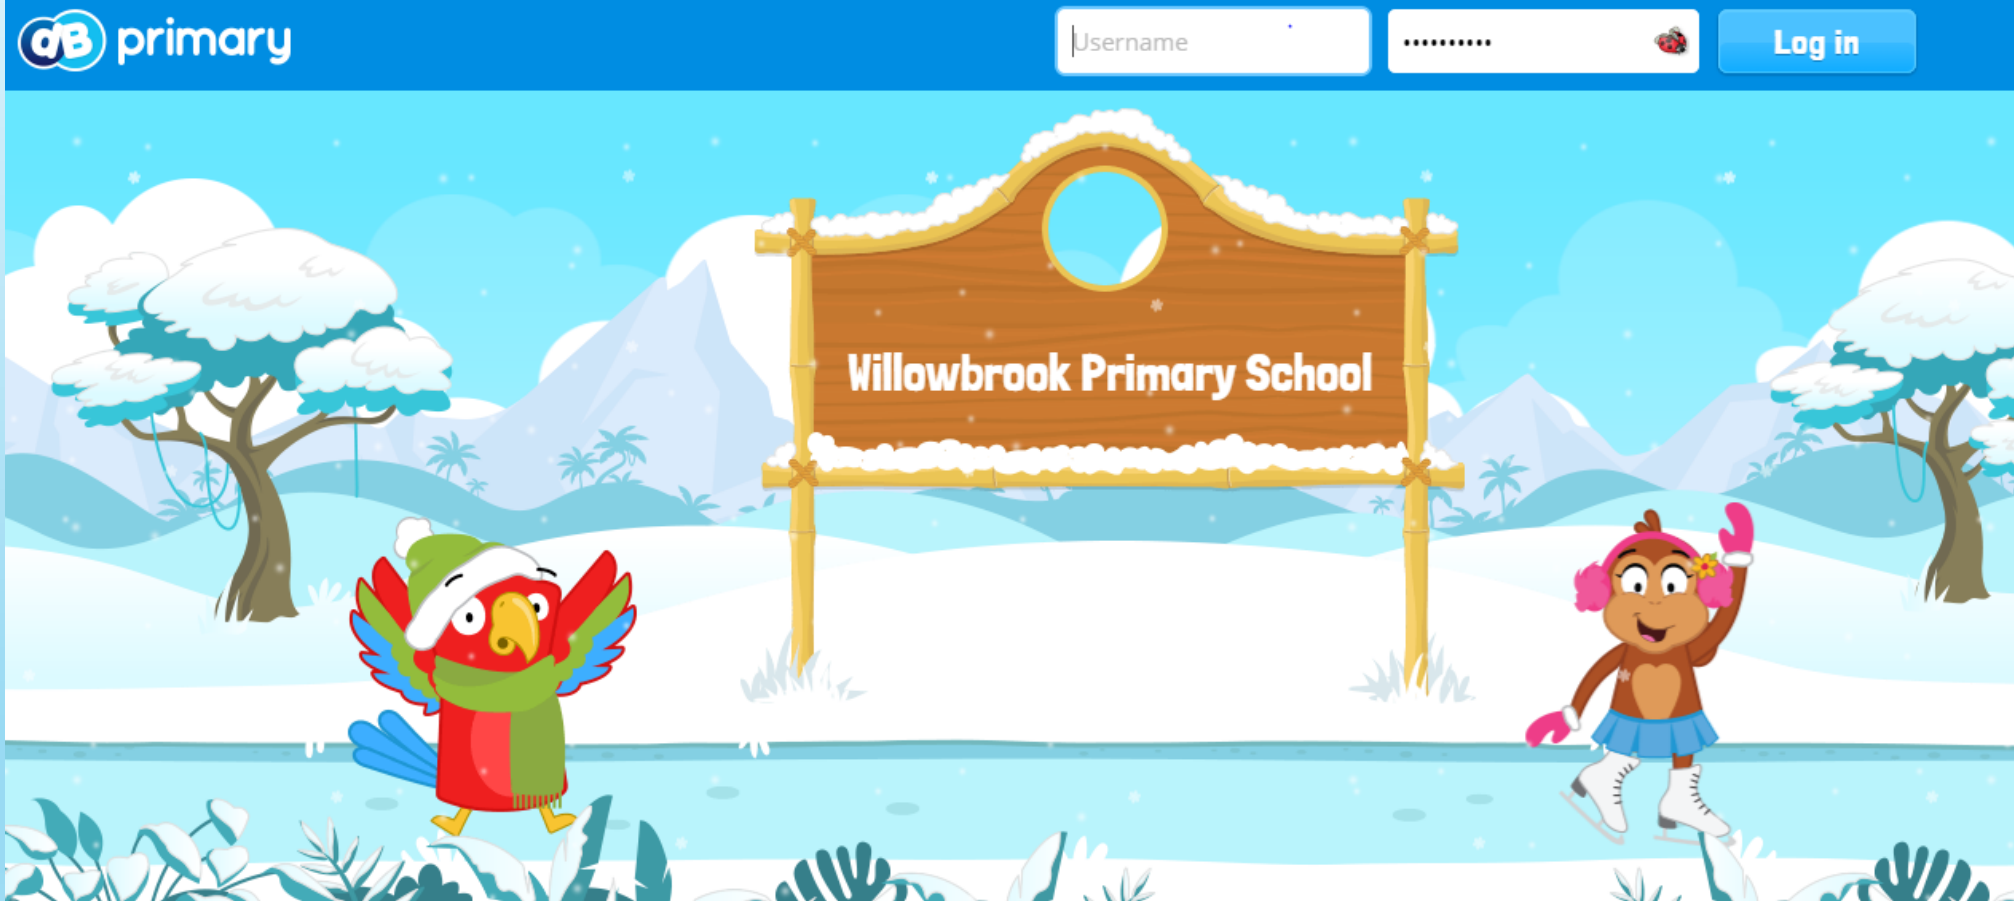

What are the benefits?

At Willowbrook we believe that the learning experience of our pupils can be further developed through the rich educational content available on DB Primary.

DB Primary will enable pupils to:

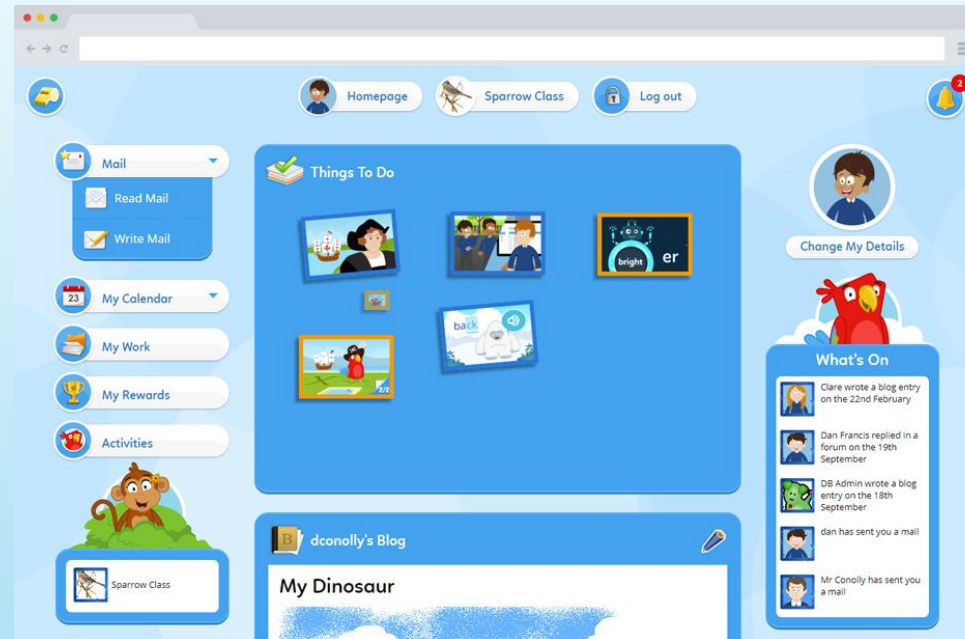

- ▶ Access learning materials whilst learning from home and outside lesson time and from any location with Wi-Fi access.
- ▶ Store work and notes online for use in homework and revision.
- ▶ Work at their own pace and with a wider choice of learning styles.
- ▶ Improve their ICT skills and online management.
- ▶ Participate in discussion and forums with other pupils and teachers.

How to log in to DB Primary

When your child first logs in they will go to their landing page.

KS1 will see this page:-

Children in KS2 will see this page:-

The pupil homepage: key features

Customising their page

Children can choose from a selection of pre-set backgrounds and upload or draw their own profile picture.

The pupil homepage: key features

My work area

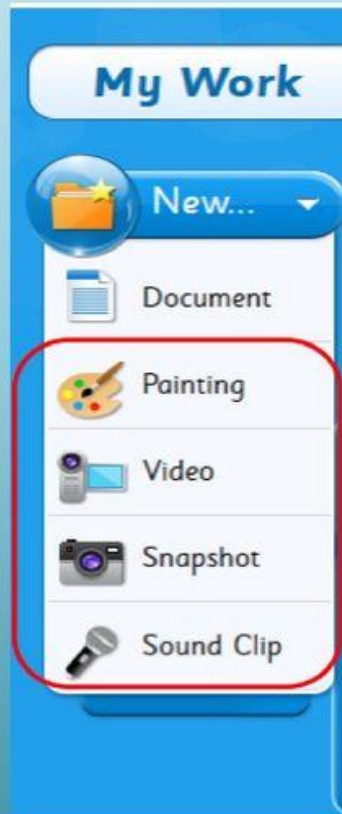

Pupils can upload their own files or create files using DB Primary tools. Files can be shared with the rest of the class once they have been moderated by the class teacher.

All KS1 pupils will be doing this to share their work with their class teachers.

This feature is optional for KS2 if they have something extra to share with their teacher that is not one of their assigned tasks.

The pupil homepage: key features

My Work area

In the My Work area pupils can:

- use the painting tool to draw a picture.
- Record a video from an attached webcam.
- Take a photo from an attached camera.
- Record their voice.

These tools let every pupil contribute to the platform, whatever their age or ability.

The pupil homepage: key features

Blog

Each pupil has their own blog which can be updated with words, pictures, sounds and video.

Teachers can set tasks to encourage pupils to update their blog.

Areas of learning: The communities

What are communities used for?

A community on DB Primary is where pupils can learn, collaborate and share information.

Class communities have been created for pupils to interact and share.

This is their class page, where they will be able to access information or tasks directly from their class teacher. The class communities are named after their class and the children will only have access to their own class.

Pupil User Agreement

- ▶ I promise to not tell anyone my password and keep it to myself.
- ▶ I will login to the platform using my own username and password ONLY.
- ▶ I promise to be kind to others and will use appropriate language throughout the platform.
- ▶ I promise I will be responsible for everything that I write and add to the platform.
- ▶ I promise I will only upload and write what I want everyone else to see.
- ▶ I promise to tell my teacher or parents if someone is being unkind to me on the platform.
- ▶ I understand that everything I do on the platform can be seen by my teacher.
- ▶ I promise that if I see anything that upsets me I will report it to an adult.
- ▶ I understand that access to the platform is a privilege and I must keep my responsibilities to be allowed to log-in.

E-Safety

whistle

There is a whistle at the top corner of your page. I will click it if I need to alert my teacher to something that I am not happy about.
